Developer-tools engineer focused on building polished desktop and IDE experiences. I specialise in React, TypeScript, and Electron, and enjoy working at the intersection of design and engineering to build tools that improve developer workflows.

EXPERIENCE

Figma, London — *Software Engineer, Dev Tools*

APR 2024 - PRESENT

- Lead engineer for Code Connect, a system enabling developers to connect code components to Figma design components.
- Designed and implemented v2 of the templating language used to generate code templates.
- Built the in-app UI surface for managing connections between code and design components (React, Livegraph).
- Developed a VSCode extension for Dev Mode.
- Built a Chrome extension to parse and screenshot React components from locally running apps in real time.
- Worked with Search team to design a matching algorithm between React components and Figma components.
- Built CLI tooling enabling developers to publish connections.
- Technologies: React, TypeScript, C++, Ruby, Rust.

HubSpot, remote — *Technical Lead II*

APR 2023 - PRESENT

Lead a new team developing a set of collaboration tools that deeply integrate with 15+ HubSpot apps, powering features like contextual commenting, tasks, and events. Previously Tech Lead of Campaigns team.

Technical Lead

MAY 2021 - APR 2023

Senior Software Engineer

NOV 2019 - MAY 2021

Frontend engineer on HubSpot's drag-and-drop email editor, working on complex editor functionality including undo/redo systems, template architecture, and performance improvements for large documents.

Software Engineer

JAN 2018 - NOV 2019

TECHNOLOGIES

Main competencies: React, TypeScript, Node.JS, VSCode extensions, Chrome Extensions, C++

Working knowledge of: Rust, Ruby

OTHER ACHIEVEMENTS

- Spoke at two tech talks:
  - ReactJS: Under the hood
  - Design ownership for engineers
- Wrote for company blog: https://product.hubspot.com/blog/design-ownership-for-engineers
- Completed **Managing People and Teams** awarded by London School of Economics

Sandstone Technology, Leeds — *Web Developer*

DEC 2016 - JAN 2018

Helped build the frontend for a mortgage application system.

EDUCATION

Leeds Beckett University — *Computer Science*

SEP 2013 - MAY 2017

Graduated with 1st class honours and awarded BCS award for Best Individual Computing Project
